EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Specification:

After paragraph #42, the following has been added

"Figure 11 is a plurality of liners."

In paragraph #51, line 6, "9" has been changed to -11--.

In the claims:

This application is in condition for allowance except for the presence of claim 3 drawn to a species non-elected without traverse. Accordingly, **claim 3 has been cancelled.**

Withdrawn claims 9-12 have now been considered and allowed, in view of generic independent claims 1 and 2 being allowed. Claim 3, not generic but directed to non-elected species II (figure 5) has been cancelled. In view of the above noted withdrawal of the restriction requirement as to the linked species, applicant(s) are advised that if any claim(s) depending from or including all the limitations of the allowable generic linking claim(s) be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 44 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

2. The following changes are the changes have been approved by the examiner and agreed upon by applicant: Applicant added a new figure 9, however there already

is a figure 9 and 10 in the application and therefore Figure 9 has been re-numbered fig. 11 and the appropriate changes made in the specification. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.
